I. APPLICATION

Title of Project: Revised Gonnering CSM

Name of Owner: Gonnering Real Estate LLC; rep. Bruce E. Gonnering

Name of Developer / Surveyor / Contractor: David Hebert, P.L.S., Hebert Land Surveying Associates

Inc.

II. BACKGROUND

The Owner has submitted an 'Application for Minor Land Division' Concept drawing to divide Tax Parcel Number 090006700 (hereafter, TPN-090006700) located on CTH C in the Town of Freedom. The Owner proposed to create Lot 1, an irregular lot of 7.276 acres in size.

TPN-090006700 hosts a WI DNR Wetland and WI DNR Wetland Indicators (see Exhibit 1).

III. ZONING ORDINANCE

TPN-090006700 is 37.36 acres in size and is zoned AGD General Agricultural District (hereafter, AGD District). A 0.64-acre parcel, TPN-090006701, was previously divided (see Exhibit 2). Section 54-131(1) of the Outagamie County Zoning Ordinance (hereafter, zoning ordinance) establishes 'Dimensional Requirements' for 'Principal Agricultural Uses' in the AGD District.

AGD District Dimensio	nal Requirements		
	Requirements	TPN-090006700	Compliant
Lot			
Minimum Area	Two ac.	7.276 ac.	Yes
Minimum Width	100 ft.	300 ft.	Yes
Setbacks (applicable ex	xisting structures)		
Front Yard	25 ft.	Not provided, but in excess of 25 ft.	Yes
Side Yard	30 ft.	none	n/a
Rear Yard	50 ft.	none	n/a

The proposed land division is **compliant** with Section 54-131(1) of the zoning ordinance

IV. LAND DIVISION ORDINANCE

Section 18-023 'Compliance' of the Town of Freedom Land Division Regulations (hereafter, land division ordinance) reads as follows:

'No person, firm, or corporation shall divide any land located within the limits of the Town which results in a subdivision, minor land division or a replat as defined herein; no such subdivision, minor land division or replat shall be entitled to recording; and no street shall be laid out or improvements made to land without compliance with all requirements of this Chapter and the following documents:

G. The zoning ordinance and all other applicable local and county ordinances and state and federal laws.'

As written in Section III of this Report, the proposed land division will result in the creation of a nonconforming structure.

The proposed land division is **noncompliant** with Section 18-023 of the land division ordinance.

Section 18-050 'Lots' of the land division ordinance reads as follows:

- A. Lot dimensions and setback lines shall conform to the requirements of the zoning ordinance.
- F. Shape of lots shall generally be rectangular. Lots platted on cul-de-sacs will generally be narrower at the street than at the rear lot line. Flag lots or easements or other lot stacking techniques shall be prohibited, except where necessary to accommodate exceptional topography or to preserve natural resources.

The proposed land division would create a lot **noncompliant** with the setback requirements of Section 18-050.A and would result in a remnant parcel **noncompliant** with Section 18-050.F of the land division ordinance (see Exhibit 3).

V. CPC COMMENT¹

CPC recommends **approval** of the proposed land division as drawn.

¹ CPC recommendations are based upon professional staff review of application materials provided to CPC. CPC staff reports are authored by a municipal planner, not a licensed attorney, and do not constitute a legal opinion.

Issue Report: Property Condition Concerns

To: Plan Commission

From: Administrator Carlson

Date: 7-9-2025

BACKGROUND

There have been concerns expressed regarding the condition of a couple of properties in Freedom, specifically at N4128 County Road E and W2060 County Road S. Preliminary investigation has confirmed there are issues with each property that may warrant further investigation and action by the town to pursue correction of these issues.

ISSUES AT N4128 COUNTY ROAD E

The property in question displays several potential issues covered under Chapter 10 of the Town of Freedom Municipal Code concerning Public Nuisance issues.

First, there appear to be weeds/grass in violation of the height limits set forth in the ordinance. Standard remedy for this is providing the property owner with a written notice of the issue. Failure to comply within 7 days of receiving the notice allows the town to abate the violation and bill the homeowner for associated costs.

Second, there is an issue regarding storage of junk vehicles, campers, or other items in a manner that "substantially annoys, injures, or endangers the comfort, health, repose, or safety of the public," or "renders the public insecure in life or in the use of property." Under those conditions, the property may be in violation of that provision of the ordinance as well. If these items obstruct the sidewalk or create a safety hazard for pedestrians, this would constitute a public nuisance.

Third, the condition of the building immediately adjacent to the sidewalk is also a potential violation of the ordinance. Buildings that are "so old, dilapidated, or out of repair as to be dangerous, unsafe, unsanitary, or otherwise unfit for human use" are considered public nuisances affecting health and safety. The town may require repairs or abatement at the expense of the property owner.

Lastly, "general public nuisance" is any act, occupation, or condition that endangers public safety, health, or comfort or greatly offends public morals or decency can be pursued as a public nuisance.

Enforcement and Remedies

- Inspection: Depending on the nature of the violation, several town officials may be able to inspect the property including, but not limited to, law enforcement, the Building Inspector, or the DPW Foreman. If a nuisance is found and deemed to be present, the owner may be given a written notice to abate the violation within a specific amount of time, usually 7-10 days for grass/weeds and 10 days for other nuisances.
- **Abatement by Town:** If the property owner fails to comply after written notice, the Town may abate the nuisance and charge the costs to the owner, which can be special assessed on their property tax bill.

 Penalties: Violations could result in fines ranging from \$50 to \$500 per day plus the costs of prosecution and abatement.

An additional concern about this property is the proximity of one of the structures to the sidewalk and the appearance that the structure is encroaching upon the right of way/exceeding the boundaries of the property line. This is potentially an issue that could also require abatement under different areas of law/ordinance.

ISSUE AT W2060 COUNTY ROAD S

The issue at this property stems from the appearance of the structure to have a substantial hole in the roof of the building, along with other aesthetic issues that are evident in the building's appearance.

The provision of the public nuisance ordinance concerning dilapidated structures would be most likely to apply in this case. Once again, buildings that are "so old, dilapidated, or out of repair as to be dangerous, unsafe, unsanitary, or otherwise unfit for human use" are considered public nuisances affecting health and safety. The town may require repairs or abatement at the expense of the property owner.

CONCLUSION

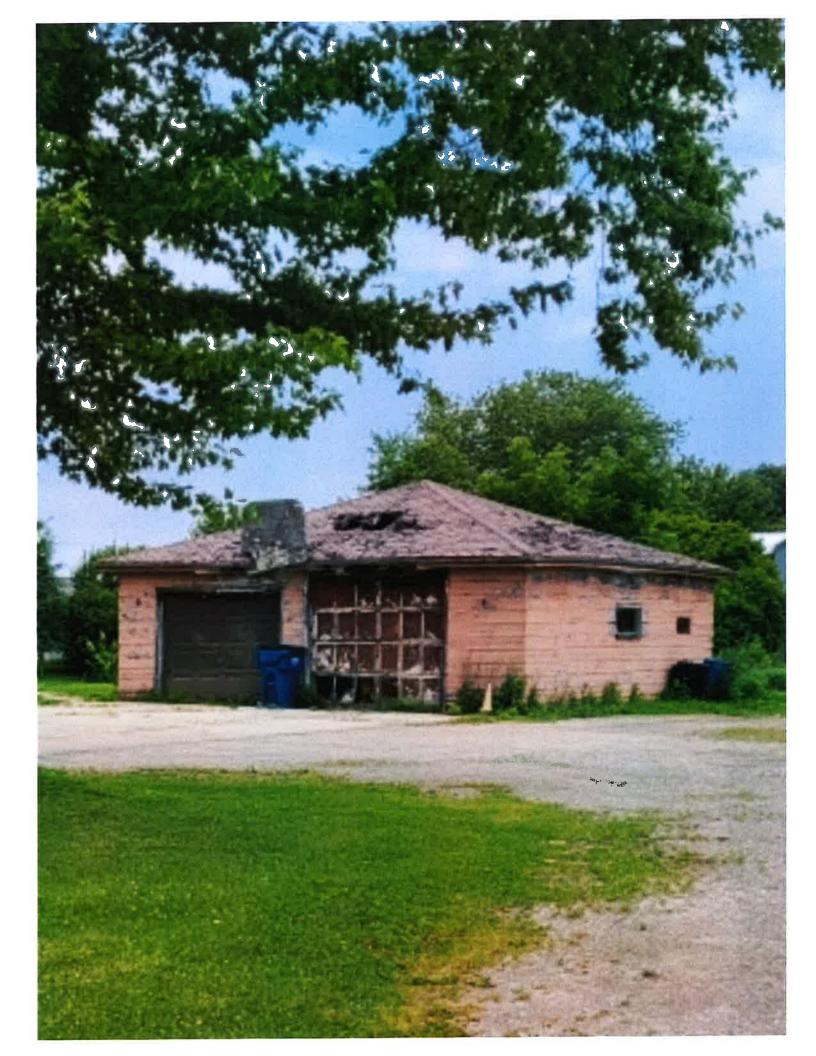

There are numerous issues that currently appear to be present at the properties. Staff recommends the Plan Commission make a motion to direct staff to notify the property owner, further investigate and inspect, and, if necessary, pursue abatement of these issues.

III. PLANNING & ZONING RELATED LEGISLATION / COURT DECISIONS

A. 2023 Act 264

Signed into law on March 29, 2024, Act 264 creates an alternative procedure for withdrawing from county zoning, beginning with a town board's adoption of a resolution of the town's intent to begin the process, then, between two and three years later, adoption of a second resolution informing the county of the town's withdrawal from county zoning. Before adopting that second resolution, the bill requires a town to have enacted a town zoning ordinance, comprehensive plan, and zoning map. A town may then enact an ordinance to withdraw from county zoning. A Town zoning ordinance enacted under this law may take effect no sooner than five years after the law passed.

2023 Wisconsin Act 264 [2023 Senate Bill 826]

Town Withdrawals From County Zoning

2023 WISCONSIN ACT 264

2023 Wisconsin Act 264 creates a new procedure by which a town may withdraw from county zoning and standardizes statutory language related to the continuing effect of zoning regulations when the governmental unit with zoning authority changes.

Town Withdrawal From County Zoning

Under current law, a town that has previously opted in to county zoning generally may withdraw from county zoning only when a county reenacts a comprehensive revision to the county zoning ordinance.

The act creates an alternative procedure for withdrawing from county zoning that begins with a town board's adoption of a resolution of the town's intent to begin the process. Then, between two and three years later, the town board must adopt a second resolution that informs the county of the town's withdrawal from county zoning. Before adopting that second resolution, the act requires a town to have enacted a town zoning ordinance, comprehensive plan, and zoning map. A town may then enact an ordinance to withdraw from county zoning. Such ordinances may first take effect five years after the act takes effect.

The act specifies that that procedure does not authorize a town to withdraw from county shoreland zoning, county floodplain zoning, and the portions of a county zoning ordinance or development plan that regulate quarry operations.

The act also repeals a Dane County-specific provision of current law, which specifies that a town may not prohibit structures and uses that were lawful under county zoning from continuing when withdrawing from Dane County zoning.

Continuity of Zoning Regulations

Certain provisions in current law provide for continuity of zoning regulations when the governmental unit with zoning authority changes, such as when town territory subject to county zoning becomes subject to city zoning after being annexed into the city. Generally, zoning regulations in place prior to a change in zoning authority remain in effect until specifically changed by the new zoning authority.

The act standardizes statutory language regarding the continuity of existing zoning regulations, including for the procedure for town withdrawal created by the act, and standardizes the language used to describe zoning regulations to include the zoning ordinance and any regulations, approvals, and conditions imposed under the ordinance.

The act also clarifies that the act does not expand or modify underlying zoning authority or authorize changes to existing regulations, approvals, or conditions, or authorize changes to nonconforming uses.
