

Monthly Reminder

Small steps toward being prepared for an emergency

Do 1 Thing is a 12-month program that makes it easy for you to prepare yourself, your family, and your community for emergencies or disasters.

Do1Thing in February: Water

Have 72 hours (3 days) worth of water stored for your household.

Tasks

[Purchase and store a 72-hour supply of commercially bottled water \(or more - up to two weeks\).](#)

A three-day supply for one person is 3 gallons (12 liters) of water – one gallon (4 liters) per person per day.

[Bottle a 72-hour supply of water at home.](#)

Replace your water supply every six months if you bottle your own water.

[Learn how to provide a safe supply of drinking water for your household in a disaster.](#)

If you have freezer space, consider freezing part of your water supply. This has the added advantage of keeping food in the freezer cold longer during a power outage.
